REMARKS

Several minor typographical errors have been noted in the Sequence Listing filed April 15, 2004.

Accordingly, there is submitted herewith a revised Sequence Listing in both paper and computer readable form, which corrects the typographical errors appearing in the Sequence Listing of record. Amendments directing its entry into the specification have also been incorporated herein. The content of the paper and computer readable copies are the same and no new matter has been added.

In view of the foregoing, it is believed that the application is now in condition for examination, and such examination is solicited.

Respectfully submitted,

Seishi KATO et al.
